

CSCI 150/151, Spring 2019 Exam Bonus Assignment

Directions: Rework any problem(s) on which you lost points on the exam. You may receive up to one half of the points back.

Guidelines:

- This assignment is due by Friday, March 29, at the beginning of class, no exceptions.
- You must work each problem completely out on paper, separate from the exam itself, *in order*. You must completely redo the entire problem in order to receive the bonus points for that problem.¹
- For problems with multiple parts—*i.e.* (a), (b), (c)—you only need to do the part(s) on which you lost points.
- You must explain your work as you go, *using complete sentences*. Your job is to convince me that you now understand how to do the problem.
- You must turn in your original exam along with your corrections. Please do not write on or change your original exam in any way.
- You do not need to work all problem(s) on which you lost points. You may do as many or few as you like.
- You are welcome and encouraged to work together. I will help and give hints, but will not work the problem(s) out, nor will I necessarily tell you if your answer(s) are correct.

¹If you are upset that you have to redo an entire problem just to correct one small mistake, you should consider whether it is really worth your time to submit a corrected version of that problem at all.
